

Kid Tested Review

Ingredient loves when its readers test new products to give other readers the scoop. Would you like to become a reviewer? Drop us a line at hello@ingredientmag.com.

Bridget from Saint Paul, Minnesota is testing The Original Perfect Pizza Pan. Individual wells allow users to customize the toppings on their own slices, and grooves create a perfect cutting guide.

Here's what our reviewer had to say:

"Do you like pizza? Well I tried out a fun and easy pizza pan. This pan was very special because it was very different it had sections. It was easy because the prep was only 15 to 20 minutes. It was fun because everyone chose what they wanted.

The result was unexpected. Well we thought we would fail the first few times but unexpectedly it worked on the first try! My recommendation is it would work for anyone who likes pizza. This would work for multiple people or parties. Kids love it. Adults have hardly any clean up and so it's fun for the whole family!" -Bridget
